

UNITED STATES CONSTITUTION

Bill of Rights

(STUDY MATERIAL ON LONG QUESTION AND SHORT NOTES)

Bill of Rights, in the [United States](#), the first 10 amendments to the [U.S. Constitution](#), which were adopted as a single unit on December 15, 1791, and which constitute a collection of mutually reinforcing guarantees of individual rights and of limitations on federal and state governments.

Bill of Rights [Bill of Rights of the United States Constitution. *National Archives, Washington, D.C.*]

TOP QUESTIONS

What is the Bill of Rights?

Why was the Bill of Rights added?

How was the Bill of Rights added to the U.S. Constitution?

How does the Bill of Rights protect individual rights?

Does the Bill of Rights apply to the states?

The Bill of Rights derives from the [Magna Carta](#) (1215), the English [Bill of Rights](#) (1689), the colonial struggle against king and [Parliament](#), and a gradually broadening concept of equality among the American people. [Virginia's](#) 1776 Declaration of Rights, drafted chiefly by [George Mason](#), was a notable forerunner. Besides being axioms of government, the guarantees in the Bill of Rights have binding legal force. Acts of [Congress](#) in conflict with them may be voided by the [U.S. Supreme Court](#) when the question of the constitutionality of such acts arises in litigation (*see* [judicial review](#)).

The Constitution in its main body forbids suspension of the writ of [habeas corpus](#) except in cases of rebellion or invasion (Article I, section 9); prohibits state or federal bills of [attainder](#) and [ex post facto laws](#) (I, 9, 10); requires that all crimes against the United States be tried by [jury](#) in the state where committed (III, 2); limits the definition, trial, and punishment of [treason](#) (III, 3); prohibits titles of nobility (I, 9) and religious tests for officeholding (VI); guarantees a [republican form of government](#) in every state (IV, 4); and assures each citizen the privileges and immunities of the citizens of the several states (IV, 2).

Popular dissatisfaction with the limited guarantees of the main body of the Constitution expressed in the state conventions called to ratify it led to demands and promises that the first [Congress of the United States](#) satisfied by submitting to the states 12 amendments. Ten were ratified. (The second of the 12 amendments, which required any change to the rate of compensation for congressional members to take effect only after the subsequent election in the [House of Representatives](#), was ratified as the [Twenty-seventh Amendment](#) in 1992.) Individual states being subject to their own bills of rights, these amendments were limited to restraining the federal government. The [Senate](#) refused to submit [James Madison's](#) amendment (approved by the House of Representatives) protecting religious liberty, freedom of the press, and trial by jury against violation by the states.

Under the [First Amendment](#), Congress can make no law respecting an [establishment of religion](#) or prohibiting its free exercise, or abridging [freedom of speech](#) or press or the right to assemble and petition for redress of grievances. Hostility to standing armies found expression in the [Second Amendment's](#) guarantee of the people's right to bear arms and in the [Third Amendment's](#) prohibition of the involuntary quartering of soldiers in private houses.

The [Fourth Amendment](#) secures the people against unreasonable [searches and seizures](#) and forbids the issuance of [warrants](#) except upon probable cause and directed to specific persons and places. The [Fifth Amendment](#) requires [grand jury indictment](#) in prosecutions for major crimes and prohibits [double jeopardy](#) for a single offense. It provides that no person shall be compelled to testify against himself and forbids the taking of life, liberty, or property without [due process](#) of law and the taking of private property for public use ([eminent domain](#)) without [just compensation](#). By the [Sixth Amendment](#), an accused person is to have a speedy public [trial](#) by jury, to be informed of the nature of the accusation, to be confronted with prosecution witnesses, and to have the assistance of [counsel](#). The [Seventh Amendment](#) formally established the right to trial by jury in [civil](#) cases. Excessive [bail](#) or fines and cruel and unusual [punishment](#) are forbidden by the [Eighth Amendment](#). The [Ninth Amendment](#) protects unenumerated residual rights of the people, and, by the [Tenth](#), powers not delegated to the United States are reserved to the states or the people.

After the [American Civil War](#) (1861–65), [slavery](#) was abolished by the [Thirteenth Amendment](#), and the [Fourteenth Amendment](#) (1868) declared that all persons born or naturalized in the United States and subject to its jurisdiction are citizens thereof. It forbids the states to abridge the privileges or immunities of citizens of the United States or to deprive any person of life, liberty, or property without [due process](#) of law. Beginning in the early 20th century, the Supreme Court used the due process clause to gradually incorporate, or apply against the states, most of the guarantees contained in the Bill of Rights, which formerly had

Dr. Debjani Ghosal, Assistant Professor of Political Science, Surendranath College

been understood to apply only against the federal government. Thus, the due process clause finally made effective the major portion of Madison's unaccepted 1789 proposal.
