

TIME FOR NATURE – NATURE HEALS BACK

Anam Shahid , Debojyoti Mondal, Sayan Kumar Saha ,
UG Students Semester 2, Department of Botany, Surendranath College, University of Calcutta
24/2, Mahatma Gandhi Rd, West Bengal -700009

Introduction

World Environment Day is the most renowned day for positive environmental action. Since 1974, it has been celebrated every year on 5th June; engaging governments, business, celebrities, and citizens to focus their efforts on a pressing environmental issue. **Time for Nature** is the theme for the year 2020.

HUMAN AFFECTING NATURE

☐ DEFORESTATION

- ❖ When forests are destroyed, water cycle is also affected.
- ❖ It causes desertification, soil erosion, climate change, loss of biodiversity etc.

☐ KILLING ANIMALS

- ❖ Hunting directly affects the natural environment it throws off natural predation and population growth of the wildlife
- ❖ Hunting also disrupts migration and hibernation of the animals.

☐ INDUSTRIAL POLLUTION

- ❖ Air pollution.
- ❖ Increasing of green house gas emission.
- ❖ Global warming.

☐ AIR POLLUTION BY VEHICLES

- ❖ Global Warming.
- ❖ CO formation by the combustion of gasoline.
- ❖ Engine noise also causes pollution.

☐ WATER POLLUTION

- ❖ Water pollution can have disastrous effects on the environment, Biomagnifications, pollutants in food chain.

☐ AFFECTED OZONE LAYERS

- ❖ Chlorofluorocarbons and other halogenated ozone depleting substances are mainly responsible for man made chemical ozone depletion.

NATURE AFFECTING HUMANS

☐ NATURAL DISASTERS

- ❖ A natural disaster is a major adverse event resulting from natural processes of the Earth. e.g.
- ❖ Earthquake
- ❖ Super cyclone
- ❖ Tsunami
- ❖ Volcanic eruptions
- ❖ Forest fire and more

☐ PANDEMICS

There has been so many pandemics in the earth. e.g. Ebola, SARS-CoV1, MARS, Plague and more **COVID-19**

- ❖ People are dying at huge number
- ❖ Worldwide lockdown
- ❖ Increasing poverty. No food
- ❖ Animals take over the streets.

HUMAN AND NATURE – HAND IN HAND

- ❖ Reforestation, people are planting trees for a better future.
- ❖ Environmental laws and policies (Go Green policy, 3R policy).
- ❖ Less uses of machine which produce Chlorofluorocarbons.
- ❖ Say NO to plastic bags
- ❖ Use solar and other alternative energies.
- ❖ Reduction of forest fire and smoking.
- ❖ Ozone layer is healing now.
- ❖ Use organic products instead of chemical.

☐ Acknowledgement

We are grateful to our Principal Dr. Indranil Kar Sir for giving us the opportunity to present our poster work. We are also thankful to Dr. Nilofer Khatoon, Asst. Prof., Department of Botany, Surendranath College for her support and guidance.
